Embodied Change: South Asian Art Across Time

Through July 10, 2022

Spanning a period from the third millennium BCE to today, the works in this exhibition offer metamorphic and compelling images of the human body. Most of the artists utilize female and feminized forms in a myriad of ways, including as a devotional object, as a mode of self-representation, and to question the safety of public spaces.

Be/longing: Contemporary Asian Art Ongoing

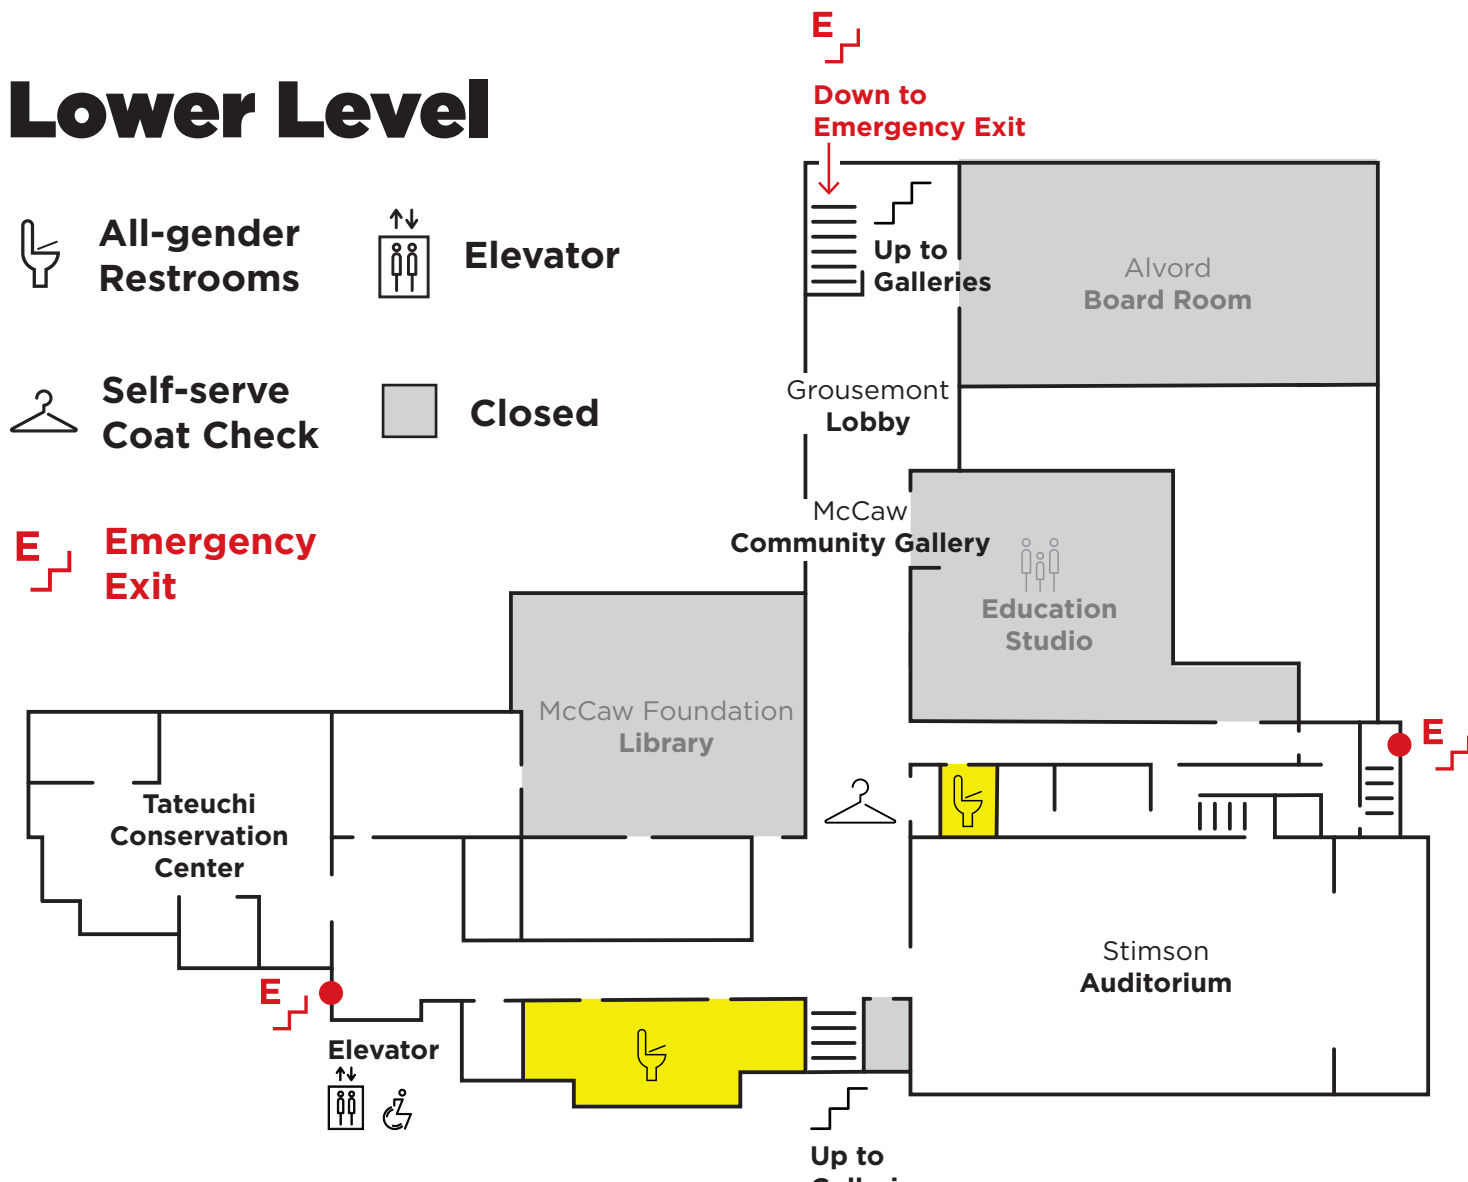

Born across Iran, India, Azerbaijan, Thailand, China, Korea, and Japan, the 12 contemporary artists in this exhibition explore their Asian heritage from differing perspectives. Shown together, these artworks aim to answer fundamental questions of who we are and where we belong.
